**Statement from Mayor Greg Ballard on Recommendations by GM Stamping Plant Reuse Commission:**

“I want to thank the Urban Land Institute and all the members of the Reuse Commission for their thorough analysis and their engagement with the community. ULI’s recommendations are the result of a well-researched, well-thought-out assessment. The redevelopment of the 100-acre GM Stamping Plant site is a great opportunity for Indianapolis that only happens once in a generation and represents the kind of bold moves our city has a history of making for the betterment of our community.”

EDS: The presentation of the Commission’s recommendations is attached.
